IMMEDIATE.

B A N G A L O R E,

17th February 1909.

Dear sir,

In reply to your D.O.letter No.G.4733 of yesterday; desiring me to furnish information on certain points regarding the improvement of the vicinity of the Queen's Statue in the Cubbon Park, I am to state as follows:-

The portion to the North of the Prospect House coloured red, measuring about 538 square yards was originally propos-ed to be transferred to the Civil and Military Station, and also the road area marked A G E and coloured red measuring about 475 square yards. In all 1013 square yards.

The land marked A B C D measuring 1013 square yards represents the existing Cubbon Park Police Station. Of this, the portion coloured green and marked B C D F G in the accompanying plan measuring (1013-213) about 800 square yards was proposed to be taken up in exchange from the Civil and Military Station, setting back the boundary Stone XIV/1 to the point F.

According

According to the final arrangement, 860 square yards of land to the North of the Prospect House is proposed to be given for the New Police Station and this plot has been shown in Major Sorsbie's plan corresponding to the site marked H in the present plan.

According to Mr.Moore's suggestion when the Station boundary stone XIV/1 is allowed to remain where it now stands i.e., at point A, about (1013-860) 153 square yards of land more than what is finally proposed to be given to the Station Authorities, will have been included within the City Municipal limits.

If, in view of the fact that the boundary stone XIV/1 at the point A standing as it does protruding two feet above the ground in the middle of the road, is considered to be a source of danger to the traffic it would be better to shift back the boundary stone to point F; though by this arrangement 322 square yards of land more than ~~the extent~~ what belonging to the present Police Station will have been relinquished in favour of the Station Authorities who will then be required to maintain the extra road area which

question,

Notes (Q.No.43 of 08)

question, however, has to be decided later on.

If, however, according to Mr.Moore's suggestion, the boundary stone XIV/1 should remain where it at present stands, it will at least have to be lowered down to the road level to prevent obstruction to traffic.

Yours sincerely,

S. Hiriyanniah Esquire B.A.,B.L.,
Asstt.Secretary to Government, Bangalore.

G. R. S. 12]
General and Revenue Secretariat.

G. M File No. 43 of 190 8-9

G

Serial No.

X Paper under disposal.

From the letter of the Deputy Commr of Bangalore and the Copies of Correspondence Enclosed, it is now definitely ascertained that the Shalem authorities require 860 Square yards of land to the north of the Prospect house (coloured red in the map) As they are positive on this point, I fear there is no alternative but to relinquish it. (H E)

The next question is what we are to get in Exchange. Mr Moore has consented to give the Site on which the Police & Shalem now stands plus a small triangular bit in front, measuring in all 1013 Square yards according to our measurement (acc to C.M authorities (027) This portion is marked by the letters A B C D in the map. By this arrangement the Dunbar would be gaining 1013 - 860 or 153 Square yards of land. This arrangement may, I think, be accepted by the Dunbar as there is no objection to it (H E)

Mr Kumaraswami Naik however thinks that to retain the small (uncoloured) bit in front of the Police Station is inconvenient as there

X marked A F G in the map (H E)

NOTE—Contn. sheet.

GPB—50.000—13-5-08

Serial No.

is said to be a boundary stone at the point A, which may be dangerous to traffic and he therefore proposes to give away this portion also to the C & M authorities to be included in the road area. He has intimated this fact to Mr Moore.

Vide last enclos. to paper under disposal

But I really do not see any inconvenience in accepting the bit in question also. On the Contrary, it is so near the old Police Station and quite in front of it that it will be an advantage to have a continuous bit of land. As regards the boundary stone, it is not an insurmountable difficulty, as it may be sunk down to the road level

(Note The old arrangement to which reference has been made by the Dy Comm was to give land in two blocks to the Station authorities viz the two portions marked red in the map, Nos 1 & 2, and to take the Police Station Site plus the triangular bit But on reconsideration, the Station authorities wanted all the land to be in one block north of the Prospect house

Note—Contn. sheet.

GPB—50.000—13-5-08

Serial No.

though in the aggregate it may be a small area. Hence the arrangement allied as above my reference is to the map prepared in the Chief Engineer's office).

19.2.09.

Secretary)

The Station authorities may be given 860 Sq yds of land to the north of the present house in one block, the present site of the present police station being resumed to the Dunbar.

The triangular bit of land referred to need not be given up to the Cemetery as suggested by the Dy Comm^r - The boundary stone at the corner (now XIV/1) may be sunk flush with the ground

By this arrangement the Dunbar may have to maintain a slightly larger area of road surface but it will avoid the cession of land. If this arrangement is ~~approved~~ approved the Resr will be informed accordingly

No. 1629/1

Retype

Dear Mr Copeland

PATAN BHAVAN,
BANGALORE.

10th March 1909.

With reference to your D.O. letter No.1402 dated the 4th March 1909 regarding the question of exchanging the site of the Police Station situated near the Queen's Statue for a site to the North of Prospect House, I understand that the Deputy Commissioner of the Bangalore District and Mr.P.L. Moore who met and discussed the question personally more than once, have agreed that in lieu of the present site of the Police Station a site about 860 Square yards in extent should be taken up to the north of the Prospect House for the new Police Station. The site is marked in the plan prepared by the Assistant Commanding Royal

To be kindly returned

Engineer. The above proposal may be sanctioned, but the Durbar would be glad if the compound of the new Police Station does not extend into the Park more than 75' from the Sydney Road. It now projects as much as 87' into the ParkAt the same time the Southern boundary of the site may be taken along the compound wall of Prospect house so as to include the triangular area marked Z, now left between Prospect House and the site of the Police Station. I would urge this slight modification on aesthetic grounds ~~so that the beauty and appearance of the Park may not be marred~~. On hearing from you formal orders will issue in the matter.

Yours sincerely

(Sd) V. P. Madhava Rao

THE RESIDENT MYSORE

BANGALORE.
13th July 1908.

Dear Mr. Madhava Rao,

In connection with the question of improvements to be made in the vicinity of the Queen's Statue in Cubbon Park, it is proposed to remove the Police Station, situated near the Statue, to a site adjoining the northern boundary of Prospect House. The Resident understandss that you have agreed to exchange this site for the one on which the Police Station now stands and he will be glad, therefore, if you will authorize some Officer of the Durbar to arrange with the Collector, Civil and Military Station, for the exact demarcation of the land which it is proposed to allot to the new Police Station.

Yours sincerely

J. H. Rumé

Sir,

With reference to Government Proceedings No.G. 374-7/G.M.43-08-2 dated the 17th July 1908, and subsequent - reminder, in re the improvement of the vicinity of the Queen's Statue in the Cubbon Park at Bangalore, I have the honor to state that Mr.Richards, the Acting Collector of the Civil and Military Station, Mr.Krumbiegal, the Executive Engineer and myself met on the 7th instant to discuss and settle the question of locating the Cubbon Park Police Station and the allotment of exchange land therefor. Mr.Richards said that he would intimate his approval of the site selected in our joint inspection. Meanwhile he writes to say that Major Sorsbie has raised one or two points with regard to the boundary readjustment at the Queen Statue and that we have to meet him again on the 15th instant.

2. A detailed report in the matter will be submitted after I receive a reply from the Collector, Civil and Military Station, after the next meeting.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Bangalore District.

To

C. S. Balasundaram Aiyar Esquire B.A.,

Offg: Secy.to the Govt.of H.H.the Maharaja of Mysore,

General and Revenue Departments, Bangalore.

Sir,

With reference to Government Proceedings No.G. 374-7/G.M.43-08-2 dated the 17th July 1908, calling for a report in the matter of demarcation of the land proposed to be allotted to the New Police Station adjoining the Northern Boundary of the Prospect House, in exchange for the site now held for the Cubbon Park Police Station to be taken up for improving the vicinity of the Queen's Statue in the Cubbon Park and in continuation of my letter No.S.122 dated the 14th September 1908, I have the honor to forward, herewith , for information of Government , copies of the marginally noted correspondence that ensued between the Collect-or. of the Civil and Military Station, the Super-intendent of Government Gardens, the Executive Engineer, Bangalore Division and myself in the matter, as also the two plans of the grounds prepared by Major Sorsbie of the Civil and Military Station and the Executive Engineer of Bangalore Division respectively.

1.Mr.B.S.Venkata Char's D.O.letter dated the 10th August 1908.
2.Major Sorsbie's note of the 7th November 08.
3.My D.O.letter to Mr.P.L.Moore of the 27th November 1908.
4.Mr.P.L.Moore's D.O.letter dated the 23rd December, 1908/15th January 1909.
5.Mr.G.H.Krumbiegal's D.O.letter dated the 27th January 1909.
6.Letter No.30 dated the 6th February 1909, from the Executive Engineer, Bangalore Division.

2. It will be seen therefrom, that the land of the Cubbon Park Police Station premises measures, according to the last communi-cation from the Station authorities 1027 square yards and according to the recent measurement given by the Executive Engineer, 1013 square yards, there being a small

small difference of only 14 square yards between the two measure-ments.

3. With a view to improve the vicinity and to lay out the grounds about the Queen's Statue, it was proposed, as suggested by Mr.Krumbiegal, Superintendent of Government Gardens to set back the Boundary Line of the City Municipality from point S.B.XIV/1 to the point at which the red lines cut the double blue lines as shown in the plan prepared by the Public Works Department. As,by this arrangement,about 538 square yards (1013-475) of land of the present Cubbon Park Police Station premises would have been actually given up by the Station Authorities, an equal extent of land was proposed to be given to the North of the Prospect House for the New Police Station; the uncoloured small triangular bit at the corner near S.B.XIV/1 being retained by the Station Autho-rities for the extra road area in addition to the existing road area belonging to the City Municipality (coloured red and marked No.I in the plan) measuring in all about 475 square yards.

4. Mr.Moore, Collector of Civil and Military Station, Bangalore , in a way, first acceded orally to the above proposal at our Meetings held on the spot for the selection of the site for the New Police Station. Subsequently, on some objection being raised by Major Sorsbie, Mr. Moore, in modification of the origin-al proposal, says that he would give up the land now held for the Police Station viz., 1027 square yards reverting to the old Boundary and take in exchange 860 square yards near the Northern Boundary of the Prospect House for the New Police Station, probably on the ground that the extent of land originally proposed to be given for the New Police Station viz., 538 square yards is too small.

Mr.Krumbiegal also says that the present proposal of Mr. Moore is quite acceptable.

5. As no other simpler arrangement could be devised, I

to recommend that Government may be pleased to give 860 square yards of land to the North of the Prospect House for the New -- Police Station as desired by the Station Authorities and allow the Boundary Stone S.B.XIV/1 to be set back as originally proposed though by this arrangement, about 322 square yards of more land will have been relinquished in their favour; otherwise the retention of the Boundary Stone in the middle of the road area would be dangerous to traffic and otherwise obstruct the way.

6. Copy of my final reply to Mr, Moore is also enclosed fo. information.

I have the honor to be,

Sir,

Your most obedient servant,

DEPUTY COMMISSIONER,

Bangalore District.

B.N.S.

D.O.letter of the 10th August 1908, from Mr.B.S.Venkata Char Executive Engineer of the Bangalore Division, to Mr.B.J.Kumaraswam Naik, Deputy Commissioner of the Bangalore District.

I send the tracing of the grounds about the Empress Statue in the Cubbon Park. The red lines in the tracing show the limits of the grounds required by Mr.Krumbiegal for laying out the -- grounds about the Statue. The limits of the Cubbon Park Police Station (Civil and Military Station) measure 1004 square yards. Deducting therefrom the lands which will be given away to the Civil and Military Station in the realignment of the grounds as per red line which measure 475 square yards, the balance 529 square yards may be set apart for the new Police Station to the West of the present Station and close to the Prospect House Compound wall. I have indicated this extent in pencil line with a sketch plan of the ~~boundary~~ building for adoption, if approved. The building is hexongonal in shape with three faces or porches, one ~~with~~ in the direction of the Station and the two others towards the Museum Road. The rear three faces will be closed rooms for Lock-up etc.,,The Central Hall will be 18 feet X 18' and the rooms behind ~~Museum~~ measure 14''X 8'.'

The tracing may kindly be returned after done with.

" C O P Y ".

DEPUTY COMMISSIONER,

B.N.S. Bangalore District.

Yours truly,

DEBORAH DOUGLAS POWER

Hammiore District

R.I.S

Assistant Commanding Royal Engineer's Office,

Bangalore Brigade.

Office Note.

Dear Moore,

At our meeting with the Deputy Commissioner on 17th September it was agreed that the area to be handed over for the New Police Station should be exactly the same as that given up. I estimate this area at 1076 square yards but the point arose whether the boundary between two Municipalities should not be thrown back to near the point where the red line cuts the double blue line on the plan. There was some doubt about this especially as regards the maintenance of the extra road area which would thereby be thrown on the Civil and Military Station. However, at the time I maintained that this was a separate question and that I wanted an equivalent area of Imperial Civil Land.

I find, however , that a smaller area will suffice, and I propose now to hand over to the City Municipality the triangular portion of land now belonging to the Police Station and marked with SB.XIV/1 to XIV/4 less the small portion at the corner ~~near~~ near SB XIV/1 which I have marked with a dotted red line. This reduced area amounts to 1076-213 = 863 square yards and I want an equivalent area from the City Municipality.

As regards the New Police Station I am revising the plan for Resident's approval but the Municipality is chiefly concerned -- with the change of boundary.

If you agree to the proposed boundary, all I want at present is an undertaking from the Deputy Commissioner (or Durbar), that an equivalent area for that surrendered will be handed over to me and I will then put the case up to Government through the Resident

Yours sincerely,

Sd/- R.~~W~~. Sorsbie Major R.E.

" C O P Y ".

Deputy Commissioner.

B.N.S. Bangalore District.

D.O.letter of the 27th November 1908, from Mr.B.J.Kumaraswamy Naik, Deputy Commissioner of the Bangalore District, to Mr.P.L.Moore, Collector of the Civil and Military Station, Bangalore.

Thank you for the plan sent by Mr.H.Clarke.

The area of the existing ground belonging to the Cubbon Park Police Station marked by Boundary Stones XIV/1 to XIV/4, as made out by Mr.Venkata Char, late Executive Engineer, Bangalore Division, is 1004 square yards; and according to Major Sorsbie's Office Note it is 1076 square yards. The difference of 72 square yards is of minor importance and it shall, however , be ascertained what the area would be by again referring the matter to the Executive Engineer.

In view of the Boundary line of the City limits being proposed to be set back from point XIV/1 to the point at the cutting of the red and double blue lines, it is important to know what the extent is which should be deducted from the present area of the Police Station.

According to Major Sorsbie's letter, this area i.e., the small triangular portion at the corner near SB.XIV/1 is shown to measure 213 square yards but he does not seem to have taken into calculation the extent of the road area covered by the --- triangular bit colored red and marked No.I in the Chief Engineer's plan.

The small triangular bit near SB XIV/1 (uncolored in the Chief Engineer's plan) which now belongs to the Police Station area will remain as a portion of the Civil and Military Station limits for which no deduction is necessary. It is only for the larger triangular bit coloured red and marked No.I which will have to be given over to the Station Municipal limits, that should be deducted from the Police Station area and which I -- believe the Executive Engineer Mr.Venkata Char has put down as

measuring

measuring 475 square yards. It would therefore appear that the extent of the land to be given in exchange for that occupied by the Police Station after setting back Boundary Stone XIV/1 would be 529 square yards (1004-475) according to the calculation made by Mr.Venkata Char.

I beg to be informed whether you are agreeable to this calculation; otherwise I propose having a meeting of all the Officers concerned, once more on the spot on any morning convenient to you.

The two plans are herein enclosed for reference and kind return.

"COPY"

D.O.letter of the 23rd December 1908/15th January 1909, from Mr.P.L.Moore, Collector of the Civil and Military Station. Bangalore, to Mr.B.J.Kumaraswamy Naik, Deputy Commissioner of the Bangalore District.

I return the two plans received with your D.O.of the 27th November. We do not want to retain any land nor to take any land except that required for the Police Station.

I propose to give up the land now held for the Police Station namely 9243 square feet, reverting to the old boundary, and to take 7740 square feet as shown in the Assistant Commanding Royal Engineer's plan. I protest against the proposed encroachments on Sydney Road and the Queen's Road which are by no means too broad at present.

(1027 & 7 M)

I am of opinion that no object would be gained by another meeting on the spot and hope you will agree to the proposed arrange-ment, which seems to me the simplest one possible.

"COPY".

DEPUTY COMMISSIONER,

B.N.S. Bangalore District.

Respectfully,

Commissioner.

D.O.letter No.663 of the 27th January 1909, from Mr.G.H. Krumbiegal, Superintendent, Government Botanical Gardens, to Mr.B.J.Kumaraswamy Naik, Deputy Commissioner of the Bangalore District.

Mr. Moore's proposal is quite acceptable. Our realign-ment of the old boundary was done chiefly to equalise the land to be exchanged but if there is no objection to our taking more land than we give, the old boundary can be ~~kept~~ left unaltered.

The red lines on Sydney and Queen's Road show simply a straightening of these roads by cutting the grass edge but even that can be left alone, as the bend in the line is hardly perceptible.

The two plans are herewith returned.

BANGALORE,

10th February 1909.

Dear Mr. Moore,

I am in receipt of your D.O.letter of the 15th ultimo, proposing, in connection with the improvement of the Queen's Statue grounds in the Cubbon Park, to give up the land held for the Police Station there viz., 9243 square feet reverting to the old Boundary and to take in exchange 7740 square feet of land to the North of the Prospect House. I should also think that the present proposal is the simplest one possible and I have accordingly made a recommendation to Government and added that the Boundary Stone SB XIV/1 might be set back as originally proposed, lest its retention in the middle of the Road area would be dangerous to traffic and otherwise obstruct the way.

As regards your apprehension of encroachments on Sydney & Queen's Roads, I am to say that these Roads will not be interfered with at all.
